

GOVERNMENT HOPEFUL OF FINAL AGREEMENT ON MINE WAGES

Secretary of Labor W. B. Wilson in Washington on Friday. Reports on the number of men returning to work were slow in reaching international headquarters, chiefly because the order rescinding the call for a strike had not yet been received in many districts, and because many local unions will hold meetings before deciding whether to return to the mines.

Dispatches received up to this time, while not clearly defining the attitude of the men as a whole, were believed to indicate that the workers will continue on strike only in isolated cases. Reports from the Terre Haute district said few men reported for work and neither miners nor operators look for anything like normal production for several days.

It was reported that one local west of Terre Haute met and voted not to return to work, but for the most part the miners appeared willing to abide by the decision of the international officers.

PITTSBURGH, Pa., Nov. 12.—Coal miners of the Pittsburgh district and the Central and Western Pennsylvania fields, have not yet received official orders to return to work. According to officers of the United Mine Workers of America here, the men will not enter the mines until they are formally instructed to do so by the union. It was expected that the official recall order would be received during the day.

F. P. Hanaway, international miners' organizer, said an officer of the district union would have to appear in person before all locals with the order to return to work. "This will require some time," he said.

JOHNSTOWN, Pa., Nov. 12.—Union coal miners of this section are preparing to return to work. Operating conditions are expected to be nearly normal by the end of the week. Twelve thousand miners in Cambria County are affected by the order.

BIRMINGHAM, Ala., Nov. 12.—At least three-fourths of the striking coal miners will be again at their posts by to-night and all should be in the mines by noon to-morrow, according to Secretary J. L. Clemo of the mine union. Production yesterday was more than 50 per cent. of normal.

MINERS IN SOME FIELDS FAIL TO OBEY ORDER TO RETURN TO WORK

Only Four of 200 Mines in Charleston District Obeying Today

Disaffection Elsewhere

CHARLESTON, W. Va., Nov. 12.—Only four of the 200 mines in the district began work, and these with comparatively small forces, according to D. C. Kennedy, Secretary of the State Coal Operators' Association. "Mine superintendents report to me the men are showing no disposition to return to work," said Mr. Kennedy. "One hundred men at the Shrewsbury mines voted last night to go back to-day, but not one appeared at the appointed time. At the Raymond City mines only 14 of a normal working force of 200 were on hand. Not a man reported at Boone, Cannellton, Longacre, or Powellton, the most important mines in the district. A few appeared at two mines on Cabin Creek."

Mr. Kennedy appealed to the headquarters of the United Mine Workers to get the men back at the earliest possible moment.

BICKNELL, Ind., Nov. 12.—Official notification of the calling off of the strike has reached headquarters here, but Bicknell workers did not return to the shafts.

CLEVELAND, O., Nov. 12.—While union officials to-day said the coal miners in the Ohio district would obey the recall of the strike order, reports from all parts of the coal field indicated the order would not be generally responded to immediately. The East Ohio district numbers 12,000 organized miners. The rank and file was in open defiance of the order to return to work.

In other parts of the coal belt the miners were awaiting receipt of the official order before taking action. Operators expressed the belief that more than 50 per cent. would return to work to-day or to-morrow and that the balance will drift back later.

DENVER, Colo., Nov. 12.—Not a miner in the district was in operation to-day, said reports to the headquarters here of the State Operators' Association.

NORTH DAKOTA MINES SEIZED BY GOVERNOR UNDER MARTIAL LAW

Action Taken on Reports That Men Refused to Recognize Calling Off of Strike.

BISMARCK, N. D., Nov. 12.—Gov. L. J. Frazier early to-day announced that he had proclaimed martial law in North Dakota and that the State would take over the lignite coal mines at once, following failure of miners and operators to come to an agreement last night as requested by the Governor.

Gov. Frazier ordered Adj. Gen. Frazier to assume charge of the situation at once.

The Governor's action was taken following receipt of word at the Capital last night that the miners would return to work under Gov. Frazier's orders, but not because the national strike had been officially declared off.

CLOTURE MOVE TO FORCE SENATE VOTE ON TREATY

Some Republicans Offer to Support Proposal of the Democratic Leaders.

NEED TWO-THIRD VOTE.

Charge Made That Foes of Treaty Are Filibustering Against It.

WASHINGTON, Nov. 12.—A movement to limit Senate debate on the Peace Treaty by invoking the cloture rule was inaugurated to-day by Democratic leaders. A petition for cloture, requiring but sixteen signatures for submission, was circulated by the Administration leaders and soon had more than double the necessary number.

Plans for submitting the cloture petition to-day were abandoned because of adjournment out of respect to the late Senator Martin of Virginia. When the adjournment was taken Senator Reed had spoken nearly three hours and had not completed his address.

Some Republican leaders said they would support the cloture proposal, which had been circulated after consultation between leaders of both parties.

The petition said that in the opinion of the signers there was an effort to obstruct the treaty by undue debate and asked that the cloture rule limiting each speaker's time to one hour be invoked.

When the petition would be presented was not determined by the Administration leaders, who said it was in accordance with action of the recent Democratic conference authorizing Senator Lusk to make such a move if it should seem advisable. Adoption of cloture required a two-thirds vote. While all of the signers of the petition were Democrats, Senator Underwood, who circulated it, said it was assumed of considerable Republican support.

The cloture move followed charges that a filibuster had been organized by the treaty's opponents. Senator Lusk, Democrat, Oklahoma, another opponent of the treaty, in his present form.

U. S. PEACE DELEGATES PREPARING TO COME HOME

Notify the Supreme Council of Intention to Sail Early in December.

PARIS, Nov. 12.—The American delegation to the peace conference has notified the Supreme Council of its intention to leave France during the first days of December. This fact was made known by American peace conference circles this afternoon.

The British peace delegation is anxious to get away by the end of this month.

The members of the American delegation will probably sail from Brest on the steamer America, but the date of their sailing has not as yet been definitely fixed. The delegates had originally expected to sail on the George Washington, but the latter is now in Brest Harbor in need of repairs. The George Washington will sail for America Nov. 13 and probably will be dry-docked in the United States.

BRAZIL RATIFIES TREATY.

Senate Follows House in Accepting Peace Pact.

RIO JANEIRO, Nov. 12.—The Brazilian Senate ratified the Peace Treaty last evening.

The treaty was ratified by the House of Deputies several days ago.

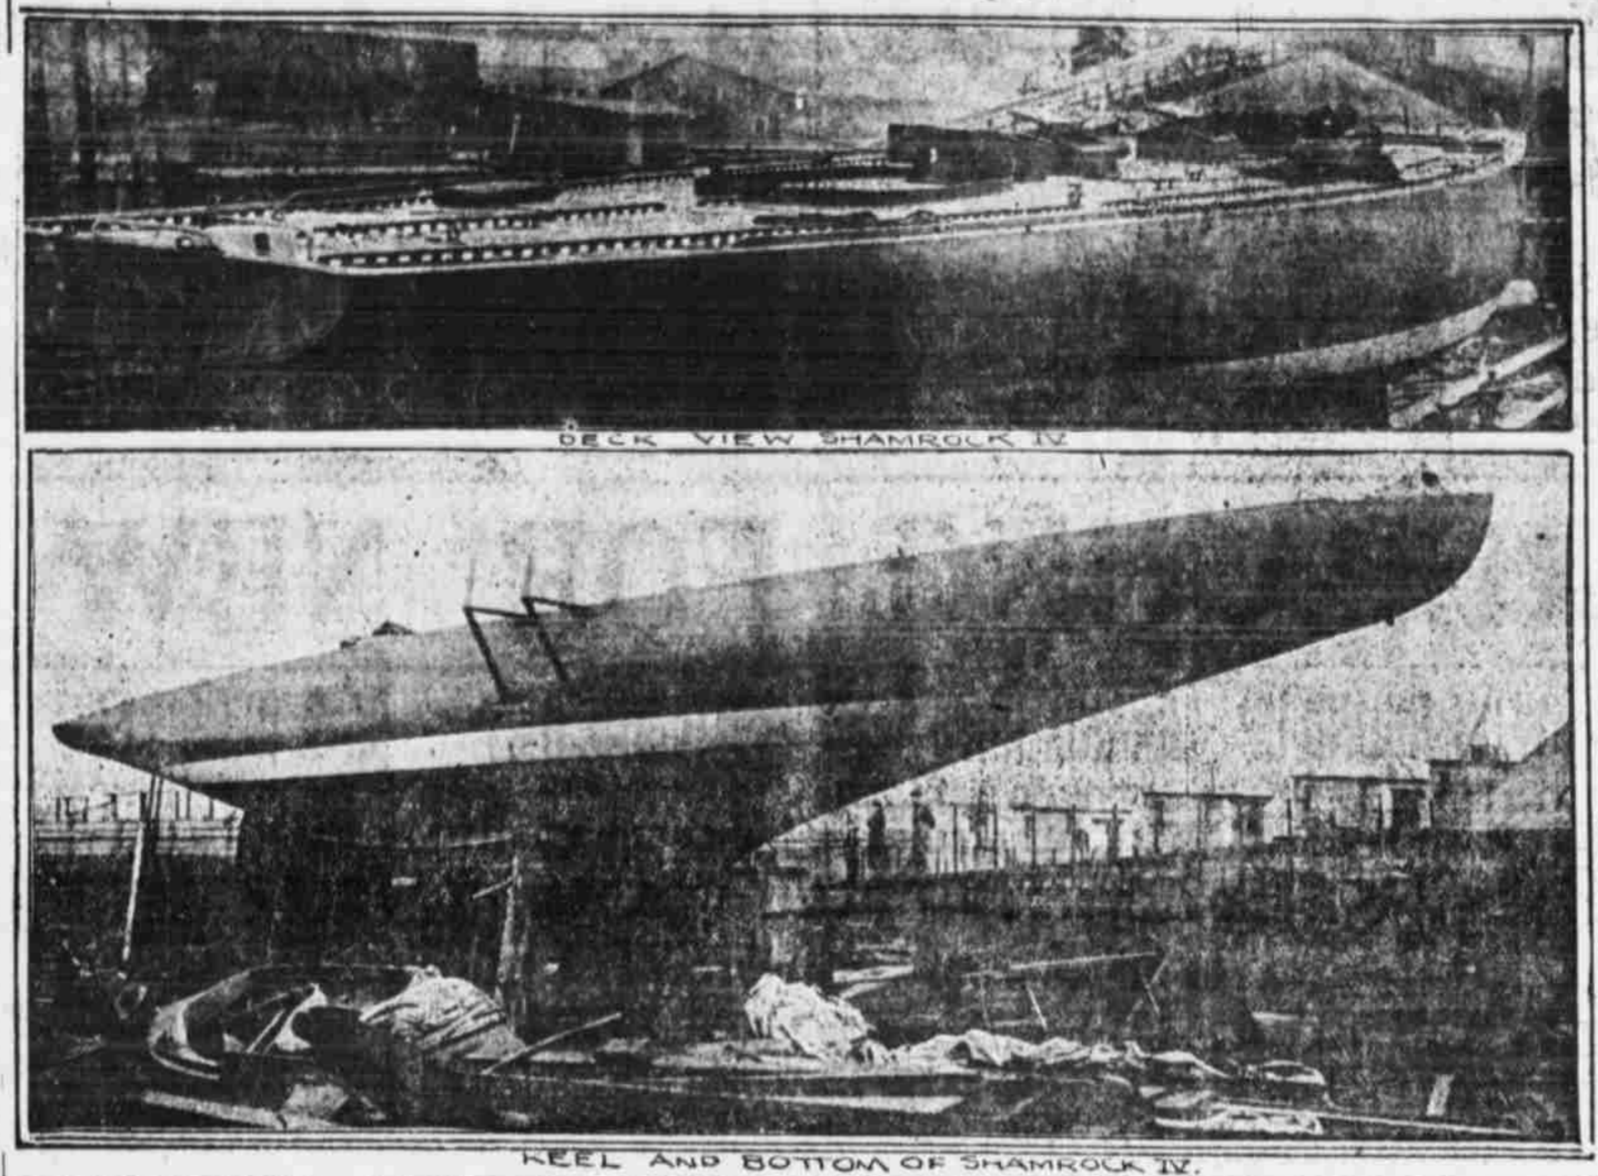

GOVERNMENT RELEASES COAL TO THE CONSUMERS

WASHINGTON, Nov. 12.—Release of coal to meet emergency needs was begun to-day by the Railroad Administration's Central Committee. Director General Hines has instructed regional coal committees to increase the quantity released as rapidly as production is correspondingly restored.

There is some shortage of coal in the Southwest Mr. Hines said, but with coal moving in that direction the emergency will soon be met.

Orders have gone out from the Railroad Administration to all Federal railroads which will turn thousands of empty coal cars again toward the mines so that there will

GITLOW MANAGER OF RADICAL PAPER, EVIDENCE SHOWS

Lusk Counsel Says Larkin Admits Editing Articles Urging Government Overthrow.

Benjamin Gitlow, formerly an Assemblyman from the Bronx, and James Larkin, who managed the British and Irish dock strikes immediately preceding the war, were arraigned before Magistrate McAdoo to-day charged with circulating propaganda for the overthrow of the Government of the United States, through the Revolutionary Age, published in this city July last.

Magistrate McAdoo adjourned until to-morrow the hearing in the case of Gitlow after it had been shown that Gitlow's name was printed in the paper as that of business manager and after a printer had testified that Gitlow made the bargain for the typesetting and press work with him. The Magistrate said he wished to know more of the nature of the contents of the paper and the manifesto of the Communist Party printed in it. The printer said he received \$652 for two editions of 6,000 each of the Revolutionary Age.

Archibald E. Stevenson, counsel for the Lusk Committee, said Larkin had admitted to him preparing, editing and sending to the printer for publication articles urging the overthrow by force of the United States Government.

EMMA GOLDMAN APPEAL COMES UP FOR HEARING

Examination of 82 Raid Prisoners at Ellis Island is Completed.

Emma Goldman, held at Ellis Island for deportation as an anarchist, was called before a special board this afternoon for a final examination on her appeal against banishment. Alexander Berkman, against whom similar proceedings are pending, will have a chance to make his appeal for several days.

The eighty-two persons arrested in recent raids and sent to Ellis Island to await proceedings looking to their banishment as persons illegally admitted to the United States were told to-day that their preliminary examinations were completed. They will be admitted to bail at any time in from \$10,000 to \$20,000, as fixed by the Secretary of Labor. All of them were told they could consult with counsel if they desired.

According to Superintendent P. A. Baker of the Immigration Station at Ellis Island the only procedure in the investigation of the cases of the eighty-two prisoners up to this time has been fixing the identity of the persons in custody as those named in the warrants used in making the arrests. Investigation of the charges of inciting overthrow of the United States Government will not begin for ten days or more.

GRAND JURY GETS BROKERS' BOOKS IN TRACTION INQUIRY

(Continued From First Page.)

Chief Clerk Roger Walsh was asked earlier in the sessions of the jury, but which they had not brought. Means came from the Grand Jury room obviously flustered. He said he was bound not to reveal the nature of the inquiry in which he had been called; also that he had been asked to sign a waiver of immunity. He let it be assumed he had signed such a waiver.

"I pledge my word," said Means to a friend as he left the Criminal Courts Building. "I did not believe that more than one other person in the whole world knew anything of the business about which the Grand Jury asked when I was questioned. It was the most startling experience of my life. Honestly, I believe they have second sight."

Mr. de Ford was not as communicative as Means. He merely remarked he had been bound to silence regarding his testimony. Crabtree, like de Ford and Means, took a large package of papers into the Grand Jury room. He had nothing to say when he came out. The Grand Jury then adjourned.

The Grand Jury, it was said, in digging for the "overshadowing crime" has impounded letters that have passed between Mayor Hylan and members of the Hearst organization, and memoranda that have gone directly or indirectly from the heads of some of the city departments to the Hearst organization. It will be the first time Mr. de Ford or anyone else connected with the Hearst interests has been brought before the Grand Jury.

It has been reported for days that the Grand Jury may attempt to establish, as the "overshadowing crime," an understanding between city officials and Hearst by which the traction lines, forced into the control of the city, might be operated according to the municipal ownership theory advocated by the Hearst newspapers, and subscribed to by Mayor Hylan.

It will not be known, of course, until the Grand Jury goes into court with an indictment or a presentment, providing it does either eventually, whether the evidence obtained is sufficient to be regarded as making out a prima facie case of conspiracy, or whether it will simply prove that certain city officials sought advice before determining upon an important policy, and having accepted that advice, adopted the policy and stuck to it, regardless of developments in the traction situation.

WOMEN INDORSE LEAGUE.

National Council Demands Immediate Ratification.

ST. LOUIS, Nov. 12.—Immediate ratification of the League of Nations covenant and improved international relations with the Central Powers were recommended at to-day's session of the convention of the National Council of Women here.

"We should support any movement that looks toward permanent peace," Mrs. Philip S. Moor of this city, President of the Council, asserted. "I recommend that every woman in the country support the League and support it

SENATOR MARTIN DIES; WAS DEMOCRATIC LEADER

Virginia Succumbs to Illness Attributed to His Arduous Work During the War.

CHARLOTTESVILLE, Va., Nov. 12.—Senator Thomas S. Martin, the Democratic leader in the Senate, died here to-day after an illness of several months. He was seventy-two years old.

Senator Martin conducted the Administration's battles on the floor of the Senate through the war, and it was his long and arduous work in this connection that is believed to have undermined his strength and brought on the general breakdown which resulted in his death.

His election to the Senate in 1904, over Gen. Fitzhugh Lee, his rival for the Democratic nomination, was a great surprise, as Gen. Lee was at that time regarded as the most popular man in Virginia.

WASHINGTON, Nov. 12.—The death of Senator Martin was announced to the Senate by his colleagues, Senator Swanson, and the Senate as a mark of respect adjourned immediately after adopting resolutions for a committee of eighteen Senators to arrange funeral services.

MINERS TO RESUBMIT THEIR ORIGINAL DEMANDS

Will Ask 60 Per Cent. Increase in Wages, Six-Hour Day and Five-Day Week.

SPRINGFIELD, Ill., Nov. 12.—Original demands of a 60 per cent. increase in wages, a six-hour day and a five-day week will be presented to the operators by mine workers in the joint state conference at Washington, according to Frank Farrington, Chairman of the Miners' Scale Committee, who came here to-day en route to the national capital.

AUTOIST HURT ON BRIDGE.

Machine of Morris Rosenthal Skids Twice, Hits Two Machines.

A automobile owned and driven by Morris Rosenthal of No. 73 Main Street, New Rochelle, crossing Queensboro Bridge this afternoon, skidded and crashed into an automobile owned by Frank Woods of Floral Park, L. I. Nellie Stevens, fifty-nine years, of Tulip Street, Floral Park, was injured in the crash, suffering a fracture of the right wrist when the impact threw her from the Woods machine.

Rosenthal, a few moments following the initial accident, again skidded and ran into an automobile owned by the Bakers and Company's Company of Long Island City. No one was injured in Rosenthal's car was slightly damaged.

EX-SERVICE MEN WRECK HEADQUARTERS OF REDS

OAKLAND, Cal., Nov. 12.—A crowd of citizens entered the headquarters of the Communist Labor Party in Lorain Hall early to-day and wrecked the interior of the place. Large quantities of political literature, red flags and furniture were burned in the streets by the mob. The mob is said to have consisted of four hundred former service men and members of the American Legion.

The offices of the World, a Socialist organ situated in the building also were wrecked. By the time the police arrived the crowd had dispersed and none could be identified as having been connected with the raid.

I. W. W. ROUND-UP FOLLOWS MURDER OF WAR VETERANS

(Continued From First Page.)

crowds watching the parade. Onlookers saw shots came from every direction and that snipers in the upper windows of the I. W. W. Headquarters Building fired into the line. McElfresh was killed instantly. Grimm, formerly a Lieutenant, was leading a platoon in the parade and fell at the second burst of fire, fatally wounded.

George Stevens of Centerville attempted to disarm an alleged I. W. W. and was wounded in the struggle which ensued.

The fourth death of a parade was added when Dale Hubbard, recently returned overseas man, gathered a small band and started after the I. W. W. Secretary, Fritz Smith. Hubbard and the fugitive grappled after a chase in which Smith fired repeatedly at his pursuers. As they clinched, Hubbard received four wounds in the body.

Another pursuer, overpowered Smith and he was taken to jail, later to be removed and hanged after citizens learned that four of the former soldiers had died. An attempt to lynch Smith was made before he was lodged in jail.

"You fellows can't hang me," he said. "I was sent to do my duty and I did it."

Gov. Hart to-day was en route to the capital from the eastern part of the State. He started immediately on receipt of news of the disorders here. His only statement was: "There will be no mob rule at Centerville."

U. S. DOCTORS O. K. ON CURING COLDS, SAYS SIR THOMAS

But Best Remedy for Youngster Is Soft Arm Around Neck—Shamrock Floated.

Sir Thomas Lipton arrived this morning at the shipyard of James Shewan and Sons, foot of Twenty-seventh Street, Brooklyn, to see the Shamrock IV, placed in a floating dry dock, and towed by a tug, headed up the river for Jacob's shipyard at City Island to be housed for the winter. The transfer was made by seventy-five men.

The famous sportsman, despite the cold that has bothered him since his arrival, was in excellent spirits. He wore a yachting cap and a black overcoat over a blue serge suit.

"The American doctor," he said, "certainly knows how to cure a cold. I'm getting better every minute. For a youngster, though, there is no cure for a cold, or any other trouble, like a soft white arm around a fellow's neck."

"Sorry," said a reporter, "but that remedy cannot be applied here."

"No," said Sir Thomas, looking about him, "too many photographers."

"It seems to me," he added, "that it will be a mighty good thing for the sport in America for me to lift the cup this year. It will bring your Yankee sportsmen over to England for a try at fetching it back."

"Then you are going to do the trick this year, you think?"

"Look at that overhang," was the response, "the most peculiar boat I ever brought over."

The Shamrock IV, appears to be about 115 feet over all, with the immense overhang of a 90-footer.

Sir Thomas was accompanied by Commodore Willard Taylor and a secretary. He received a letter this morning, he said, offering him as a mascot the golden eagle from the original America, which brought the cup from England.

"There's the spirit for you," he said, "but I expect to have many offers of mascots. The last time I tried nine Irish terriers were presented to me. A woman, I remember, offered her red-headed fifteen-year-old son."

"Before the Shamrock was launched she was taken from the platform on which she was propped up yesterday after being removed from the shed where she had been housed for the last five years. With huge greased planks and rollers the Shamrock IV, was slid onto the dry dock."

150 AUTOMOBILES STOLEN.

One Man Held in \$10,000 Bail Pending Inquiry.

Detective Brownworth, informed Magistrate Corrigan in Essex Market Court to-day that complaints of the thefts of 150 low priced automobiles had been received since July 1 from the district between Houston and 23d Street, east of the Borey and Third Avenue. He requested the detention of Nathan Applebaum of No. 48 Dumont Avenue, Brooklyn, now under arrest on a charge of grand larceny, under heavy bail for forty-eight hours pending the investigation of these complaints.

Applebaum was held in \$10,000 bail.

375,000 VOTING ON STRIKE OF RR. MACHINISTS

Government Anti-Walk-Out Legislation Is Question Before the Workers.

WASHINGTON, Nov. 12.—Three hundred and seventy-five thousand union machinists throughout the United States were voting to-day on a general strike, in connection with the railroad labor situation.

"The vote is returnable late this month," said William Johnston, President of the International Machinists' Union. "Ballots were sent out a month ago."

"The question directly before the men is whether they shall strike if Congress passes anti-strike and compulsory arbitration legislation, now before it in connection with settling the railroad problem."

"If I know the machinists they will hit the street the minute this legislation passes—if it does."

One hundred and twenty-five thousand of the union machinists are employed in railroad shops. As provided in the strike ballot instructions, they would be first to go out. Later union machinists in all industries would be called out in a sympathetic strike if necessary.

The machinists' vote is being taken when members of two of the four great railroad brotherhoods are conferring with Rail Director Hines and pressing their demands for immediate wage increases to make their earnings commensurate with the cost of living. These two brotherhoods are the trainmen and conductors.

An answer falling far short of the demands of these unions was given to the committee yesterday. It was learned, President W. G. Lee of the Brotherhood of Railway Trainmen and President L. L. Sheppard of the Order of Railway Conductors were to confer with Hines again to-day.
